

REPORTING FORM

for describing the impact of scientific activity on the functioning of society and economy, containing information on the relationship between the results of scientific research or development work or scientific activity in the field of artistic creation and the socio-economic environment

<i>Impact description title:</i>	<i>(up to 150 characters with spaces)</i>
<i>Impact description summary:</i>	<i>(up to 1000 characters with spaces)</i>
<i>Indication of the year in which the evaluation for which the given impact description is submitted for assessment is conducted:</i>	
<i>Discipline to which the impact description applies ¹:</i>	
<i>Names and surnames of the persons who carried out the scientific activities covered by each impact statement, and – if known – ORCID numbers</i>	

¹ According to Regulation of the Ministry of Science and Higher Education of 11 October 2022 on scientific domains and disciplines and artistic disciplines (Journal of Laws 2022, item 2202)

<https://isap.sejm.gov.pl/isap.nsf/download.xsp/WDU20220002202/O/D20222202.pdf>

<p><i>Information whether the description of the impact has been reported as:</i></p> <p><i>The order of consideration in the evaluation should be indicated:</i></p>	<i>required in relation to the number of persons determined in accordance with the regulations issued under Article 267 paragraph 2 point 1 of the Act in the period covered by the evaluation</i>	<input type="checkbox"/>
	<i>additional, in connection with conducting scientific activity within the scientific discipline belonging to the field of humanities, the field of social sciences or the field of theological sciences, related to outstanding scientific monographs, biographical dictionaries, bibliographic dictionaries or databases, particularly important for the development of a given field</i>	<input type="checkbox"/>
	<i>additional, in connection with conducting scientific activities within the field of engineering and technical sciences, related to architectural, urban or spatial development plans</i>	<input type="checkbox"/>
	<i>additional, in connection with the establishment of another entity for the purpose of commercialisation of the results of scientific research or development work or know-how related to these results, related to the activities of the established entity, together with the name of that entity</i>	<input type="checkbox"/>
<i>Information on the effects of scientific activity relevant to creating an impact</i>		
<i>Characteristics of the main conclusions from scientific research or development works or the effects of scientific activity in the field of artistic creation:</i>	(up to 2500 characters with spaces)	
<i>Characteristics of the role of the subject in achieving the results of scientific activity:</i>	(up to 1000 characters with spaces)	
<i>Bibliographic description and summary of no more than 5 scientific achievements referred to in § 2 section 10 points 1 and 4–6, resulting from scientific research or development work conducted in the period covered by the evaluation or before that period, but completed no</i>	(up to 1500 characters with spaces for each scientific achievement or artistic achievement)	

earlier than in the twentieth year preceding the first year covered by the evaluation, indicating the main authors of these achievements who are or were employed in the entity or received education in the entity;

in the case of scientific activity in the field of artistic creation, a description of no more than 5 artistic achievements referred to in § 2 sec. 10 point 7;

the bibliographic description and summary of the scientific achievement or the description of the artistic achievement may include the website address at which the achievement is available on the date of placing the impact description in the POL-on System:

<p><i>Characteristics of the impact of scientific activity, including the results of which are subject to commercialization, with an indication of the relationship between scientific activity and this impact, as well as the social group that is the beneficiary of this impact and the area on which scientific activity has the greatest impact:</i></p>	<p><i>(up to 5000 characters with spaces)</i></p>
<p><i>Detailed description of no more than 5 pieces of evidence of the impact of scientific activities, and in the case of the description referred to in letter f, second indent, third double indent, no more than 5 pieces of evidence of the impact resulting from the scientific activities of another entity established by the entity for the purpose of commercialisation (the characteristics may include the website address where</i></p>	<p><i>(up to 1000 characters with spaces for each evidence)</i></p>

<i>on the date of placing the impact description in the POL-on System the given evidence of impact is available):</i>	
<i>Information whether the impact arose as a result of interdisciplinary research or development work, and the characteristics of the importance of interdisciplinary research or development work on the formation:</i>	<i>(up to 1500 characters with spaces)</i>
